

# Do You Know A Christiecrat?

- If you'd rather serve big business instead of working class families,
- If your idea of public service is ignoring 500,000 public servants,
- If you vote to kill collective bargaining,
- If you attempt to balance the state budget on the backs of the middle class while letting the "Bully-in-Chief" continue to give millionaires a pass,
- If you take political support and campaign money from public workers and then throw them under the bus,
- If you claim to be pro-labor while selling out labor,
- If you write a bill that makes millionaires richer and the working class poorer,
- If you vote your self-interests and not the middle-class' interest,
- If you toe the line on insurance reform that was written to serve George Norcross,
- If you blame public workers for the damage done by politicians,
